

## Frequently Asked Questions

# InTex<sup>®</sup>

Drainage Catheter with Handle

### ***Are the Intex Catheters available on prescription?***

It is available on prescription and through your Pharmacist

### ***Are the catheters reusable?***

The whole device is disposable and sterile so should ideally only be used once

### ***Can the catheter be adjusted?***

Yes the catheter is fully adjustable for comfort and ease of use

### ***Can I use the catheter on my own?***

Ideally the Intex catheter should be used under the guidelines of a skilled professional and a gel is recommended for ease of fitting

### ***Can I have get an allergic reaction from using the catheter?***

The Intex catheter has a relation tip and is made from PVC to minimise allergic reactions, whilst the handle and optional mirror are made from disposable polypropylene.
